Alaska Railroad (ARRC) and gravel mine operators remind Mat-Su residents and drivers that gravel mining activity and rail transportation resumes:

- **mid-April** at Kashwitna (north of Wasilla)
- **early May** along Glenn Hwy near Springer Loops (Palmer)

**Palmer:** Expect 3-hour delays at Outer Springer crossing during train loading, approximately 6-10am (and 6-10pm when 2 trains operate daily). Please use Inner Springer Loop to access Glenn Highway. Use webcam video feeds, viewable by phone/computer, for advance warning of train loading operations. Online, visit [AlaskaRailroad.com > Corporate > In the Community > Gravel Trains](http://www.AlaskaRailroad.com) or call 907-265-2671 for details.
