Alaska Railroad (ARRC) and gravel mine operators remind Mat-Su residents and drivers that gravel mining activity and rail transportation resumes:

- **early May** along Glenn Hwy near Springer Loops (Palmer)
- **mid-May** at Kashwitna (north of Wasilla)

**Palmer:** Expect 3-hour delays at Outer Springer crossing during train loading, approximately 6-10am (and 6-10pm when 2 trains operate daily). Use Inner Springer Loop for alternate access to Glenn Hwy. Inner Springer will be blocked 20-30 minutes during the end of the loading process, 9-10am/pm. For more information, visit [AlaskaRailroad.com > Corporate > In the Community > Gravel Trains](#) or call 907-265-2671 for details.
