Addendum 1

INVITATION TO BID NUMBER: 24-19-211794 DHI COACH ROOF MOUNTED COMPOSITE HVAC COVER

Addendum number 1 has been issued for questions/clarification.

**Offers will be received until 3:00 pm local time on March 13, 2024.
At which time bids will be publicly opened.**

- Can you provide CAD Data for the 3 Items in the parts list (Or Entire Assembly)? **Yes, see attached. Note that the CAD data is conceptual only and is a representation of one potential solution.**
 - Can we assume that New Tooling is required? **Yes.**
 - Will there be the potential for more parts in the future? **Yes, we anticipate one re-order of approximately eight (8) additional assemblies in the next one to three years.**
 - Regarding sun fade and gloss not being affected for 10 years; to my knowledge, this is not possible for any gelcoat or paint product unless it is stored in a perfectly dark and temperature controlled environment. Is this a firm requirement? **Normal wear/tear/fading/discoloration is not expected to be covered under warranty.**
 - Regarding 10 year warranty, what qualifies as a warranty failure? **Any failure due to materials or manufacturing i.e. delamination, blistering, significant voids, significant water absorption, significant porosity, etc..**
 - Another requirement is having manufactured parts for a government applicator for the past 5 years. Then, there must be five examples. What are you seeking for examples? What type of proof is needed? **Any similar type work which has final application on vehicle regulated by DOT, FAA or FRA (i.e. car, truck, airplane, freight car, passenger coach). Portfolio of product, application, applicable vehicle and photos of nearly complete product. Photos may be taken prior to application of decals/stencils identifying customer.**
-

All other terms and conditions remain unchanged.
If there are any questions regarding this addendum please let me know.

Thank you,

C. Lee Thompson
