Addendum Number 1

RFQ 25-34-212830

ARRC Project and Program Management Services TA

This Addendum is being issued to provide information as follows.

Question and answer:

1. Q: Please clarify the role that ARRC sees for the "Project Engineers" listed in the proposed project staff. Is ARRC looking for professional engineers to provide design services acting in responsible charge of work or someone in the AK DOT&PF role of field project engineers performing construction oversight on behalf of the owner?

A: ARRC is looking for Project Engineers to perform certain tasks associated with project and program management. Some instances will require services to be performed by or under the supervision of an Alaska Registered Engineer (PE) or Professional Land Surveyor (PLS), and in some cases, the PE or PLS are the responsible charge for work/services performed under this Contract. Please keep in mind that not all deliverables will need to be sealed by a licensed PE or PLS in the state of Alaska.

All other terms and conditions remain unchanged.

Acknowledge receipt of this and all addenda in your firm's Service Bid Form (Form 395-0129).

Sincerely,

Sazil Say
